Please mark all measurements in millimetres. If you are templating more than one shape, please mark the templates with 'Template 1', 'Template 2', 'Template 3' etc as shown. We cut to the exact measurements you put on the template (our tolerance is +/-2mm), please bear this in mind when sending us your dimensions. Be sure to measure in a couple of places to ensure that the dimensions are the same all the way along. Cut. My Plastic cannot be held responsible for any pieces that do not if cut to the dimensions supplied. We recommend using Silicone to seal the splashback. If your splashback is a couple of millimetres too small, this will be hidden behind the silicone.
